

**Vacancy:** Associate Fellow and Fellow, Public-Private Partnerships (PPP)

**Job Code:** CIRC03AFE for Associate Fellow and CIRC04FE for Fellow

### **Job Profile**

We seek an experienced professional to be a part of a dynamic team at CUTS Institute for Regulation & Competition (CIRC), New Delhi in its Global Initiative for Sustainable Infrastructure (GISI).

One of the objectives of CIRC is to support the development of sustainable infrastructure, with specific focus on public-private partnerships (PPP), to make infrastructure and services people centric, sustainable, accessible and affordable to all and make economies more attractive to potential investors.

CIRC seeks to help develop the eco-system for green infrastructure and to build competitive physical and social infrastructures by promoting a people centric PPP approach by developing a new framework for People First PPPs, regulatory and policy audits for enabling environment, innovative financing options, supporting capacity building in “people”, public sector and private sector for managing PPP transactions and partnerships. The objective to develop an inclusive framework with delivery to the poor and marginalised at the heart of it.

GISI would be focusing on people centric projects in the infrastructure sector such as renewable energy, water and sanitation, rural supply chains, integrated civic projects in towns and villages, medical and health services, transport, ICT, skill development etc. While focus would be on India, it would work extensively in the developing countries across the world through a network of governments, multilateral and bilateral institutions, other similar organisations and institutions.

### **Responsibilities**

The Associate Fellow/Fellow shall be part of a team which identifies new areas for research and development in the field of sustainable development, seek funding from appropriate sources, identify appropriate research design, carry out field work, organise workshops and stakeholder conferences, follow up the development and implementation of the already identified projects in partnership with governments, multilateral and bilateral institutions, private sector etc. In addition, he/she will be required to assist staff of the sponsor organisations in articulating the inherent issues and policies in each sector and developing result oriented implementation programmes.

The main tasks to be undertaken in this respect, include, but are not limited to, the following:

- Strengthen the internal capacity by ensuring better synergy among the junior staff working in this area.
- Building on existing internal competencies to develop integrated sustainable infrastructure research programs.

- Assist the private sector experts and staff to strengthen their technical skills to identify, prepare, appraise, implement and supervise PPP projects.
- Develop guidelines, procedures and criteria to be used for appraising PPP projects taking due consideration of the particular sector.
- Provide advice in the formulation of strategies, policies, procedures and programs relating to PPPs in coordination with other experts of the CIRC.
- Enhance the marketing experience, results and strengths in international or regional areas, e.g., preparation of case studies, etc.
- Identify potentially promising PPP projects for which utilization of funds from bilateral donors for technical assistance to preparatory work is the most pertinent for generating and securing opportunities to support and invest in PPP projects.

### **Qualifications and Experience**

- Masters degree in at least one of the following fields: Business Administration, Engineering, Law and other related fields.
- Around 4 years of experience of which at least 3 years of extensive experience related to infrastructure PPPs and infrastructure development, preferably in developing countries, including the development of policy, legal, and institutional frameworks as well as the financial and technical aspects of projects.
- Good understanding of policy and regulatory issues around PPP development in developing countries.
- Good knowledge of private sector participation in public services provision in developing countries.
- Good knowledge of inclusive PPP regulation and decentralisation legislation in developing countries.
- An excellent knowledge of drafting proposals to donors and governments.
- Proven ability to operate effectively in a multicultural team environment.
- Familiarity with the policies and procedures of multilateral and bilateral institutions.

### **Skills**

- Excellent communication skills both verbal and written;
- Passionate about research;
- Team player;
- Ability to generate goodwill with working partners;
- Ability to manage parallel tasks and deliver on time to meet internal and external deadlines

### **Compensation**

CIRC recognises that the right candidate will have a significant impact on the success of the organisation and is prepared to offer an attractive compensation package for the non-profit sector, commensurate with experience.

### **Location**

The position will be based in New Delhi. Travelling around India with potential for international travelling to partners and conferences will be expected.
