Takeaways from India's budget that slashes income tax on the salaried middle class to spur growth

The government allocated ₹1 lakh crore to the Urban Challenge Fund, aiming to improve governance, municipal services, and city planning, thereby fostering sustainable urban development. Personal income tax reductions were introduced to boost middle-class spending, potentially increasing household consumption and investment.

#### RBI issues revised priority sector lending norms effective April 1

On March 24, 2025, the RBI revised Priority Sector Lending (PSL) guidelines, effective April 1, 2025. Key changes include higher loan limits for affordable housing, expanded eligibility for renewable energy projects, and increased PSL targets for urban cooperative banks to 60% of ANBC or CEOBSE. These updates aim to boost credit flow to critical economic and social infrastructure.
