The Competition Act, 2002 has been in force since 2009. The Act establishes a completely new set of rules unfamiliar to most companies doing business in India. The enforcement of the Act is at a nascent stage. This has called for professionals in the field with relevant knowledge and good understanding of Act to prepare the upcoming professionals (lawyers/economists and researchers). More and more students are finding this domain extremely interesting and want to take the first mover advantage. An enlightened faculty with advanced knowledge on this subject can guide the students and help them in understanding the nitty-gritty of the Act and appreciate its importance in Indian context.

The educative sessions and a concluding panel discussion with experts will help the faculty members to understand the various facets of Competition Law & application of economics in the area of Anti-Competitive Agreements, Abuse of Dominance and implications of Mergers & Acquisitions of businesses.
